

Adventures of Camelia

Pitch deck for animated TV series

Written & conceptualized by Pabitra Adhikary

Graphic novel published by Shuktara (Bengali) and Ukiyoto Publishing (English)

Logline

Adventures of Camelia is a comic series. The concept of the Multiverse has been discussed uniquely in this series. Our world of perception is restricted to a specific limit. There is a limit to our world of feelings. Beyond the world of feelings, there is a huge world as well. In this story, a good relationship between science fiction and mythology has slowly developed.

Season Synopsis

Camelia is a young woman who is fond of adventure. She is born and brought up in Kolkata. Later, she receives training from ISRO and NASA. Since her childhood, she has had a predominant interest in space. At a very premature age, she lost her parents. She has grown up in sheer loneliness in her life. She lost her venerated friend Robert on the initial space mission of her life. She survives with the faint hope that Robert will come back into her life.

On her first space mission, she comes upon the creatures of the planet Dexter.

Numerous unspecified mysteries of space are revealed to her. She comes to know about the planet Terratullus 999. Camellia returns to Earth with Dr. Blatteria, a scientist, from the planet Dexter.

After coming back to earth she serves in ISRO for some time, again departs ISRO and comes back to Calcutta, and initiates research on the multiverse.

She protects humanity from monsters arriving from the multiverse.

We assume that our universe is infinite. But this universe keeps a limit. Outside of this universe, there are multiple supplementary universes in parallel, i.e. multiverse.

The time difference between one universe to the subsequent universe is about 1000 years.

Camellia comes to realize that in the Universe that exists 1000 years from now, humans no longer live on Earth. Humans survive in space. Then aliens and monsters live on this planet.

The human species inhabit 108 spaceships. However, a group of monsters has become dynamic in wiping out human civilization.

The monster that perishes in Camellia's hands is one of them.

Terratullus 999 has perpetual enmity with these monsters. The monsters are defeated by the creatures of the planet Terratullus 999 and hide in the underworld. But when the creatures of the planet Terratullus 999 are obliterated by the harbingers of the murky universe, the monsters come out again. Monsters scatter from the underworld to divergent universes.

There has been a synonymous human appearance to the creatures of the planet,

Terratullus 999. That's why the monster yearns to destroy the human race altogether. Consequently, they reach several universes and onslaught human civilization.

Some groups of people from future worlds come to life on our earth. They arrive in diverse universes and seek to sustain humanity from monsters there. One of them comes to be Camellia's mentor. Camellia arrives on Earth 1000 years later, where she becomes the friend of many of them.

Camellia also prefers to save humanity from those monsters. But those monsters were incredibly powerful. So she goes to distinct universes within the multiverse, asking for assistance from everyone. Furthermore, she comprehends that it will be feasible to exterminate all the monsters with a special weapon. Camellia and her team reach out to different universes to get at that weapon. There, they encounter death repeatedly in varied universes.

Accordingly, one day they encounter the king of all universes, namely "king of all kings". From him, they come to know that "The Great Destroyer" wishes to make a Great Flood before time. Then all the universes will be engulfed together. Therefore, again he craves to create everything anew.

Camellia ultimately confronts "The Great Destroyer". Camellia somehow manages to convince him. It may be hazardous to destroy something, but it is much tougher to create something. "The Great Destroyer" was delighted with Camellia's utterances. He wants to bestow Camellia a significant role in this multiverse. "The Great Destroyer" provides Camellia with a special weapon, which will be eligible to wipe out all the monsters in diverse universes together.

Episodic Synopsis

Episode (1): Camelia and the creatures of the planet Deckster :

The beginning of the exploration of the multiverse. Camelia and her companion Robert are sent into space on a specific mission. There Camelia is introduced to the creatures of the planet Deckster. Many mysteries of space are revealed. She learns about the planet Terratullus 999.

But will Camelia be able to save herself and Robert from the creatures of that planet Deckster? Can they come back to earth?

Episode (2): Camelia and the monster from the multiverse:

We consider the universe is absolute, but that's not the truth, Universe has a perimeter as well, and what is beyond that perimeter? Probably one extra universe or a string of parallel universes. This is where the concept of multiverse arises.

A monster from that multiverse arrives in our world. He wants to contact other monsters in their universe, to bring them to this world. Can Camelia and her team save the world from the monster?

Episode (3): Camelia and the world after thousand years:

The world after thousand years. Aliens and monsters are dwelling on earth then. People are residing in space. They all are inhabiting the 108 spaceships.

A particular kind of monster wants to entirely wipe out the human race. Because humans are complementary to Teratulus 999 animals.

Camellia reaches the future world. She expects to conserve the human race from those monsters. The monster that has expired at Camellia's hands is one of them.

Those monsters are extremely powerful and are outnumbered. So they cannot be defeated. Camellia, therefore, prefers to move to different universes to ask for guidance.

Episode (4): Camelia and the unknown facts of Terratullus 999:

The monsters are repeatedly defeated by the creatures of the planet Tarratullus 999 and are eventually compelled to hide in the underworld. But when the creatures of the planet Tarratullus 999 are destroyed by the messengers of the Black Universe, those monsters come out of the underworld and longing to eliminate the human race.

The creatures of that Terratullus 999 planet must have had some weapons that could be used to defeat the monsters. To find them out, Camellia travels to planet Terratullus 999 in another universe with a subtle body.

Episode (5): Camelia and the Universe of unrealistic dreams:

To comprehend the secret of the weapon that can devastate those monsters, it is relatively difficult to reach the universe. The dream world is exempt from the illusion of all time and dimensions. So Camelia and her team decide to reach that unknown universe through the dream world.

But by mistake, they reach another universe. They discover an exceptionally enormous black hole.

Episode (6): Camelia and the mystery of the black hole:

Right in the middle of this multiverse, there is the black hole. That black hole is totalitarian/omnivorous. It aspires to swallow everything in front of it. Abundant universes have been swallowed by that black hole.

Camelia will realize that presently they are heading towards inevitable extinction. At such times, a spaceship saves them.

Episode (7): Camelia and the diametrically opposite dimension:

Camellia and her team reach that diametrically opposite dimension. They become friends with the creatures of that spaceship. There they encounter a bizarre world. Animals that are massive in this world are tiny in our world. Animals that are little in our world, are gigantic here. Camellia comprehends that on terratullus 999 planets, animals have a crucial role in their evaluation.

Camellia goes there and asks for help. One of them says he has to infiltrate a weird world to receive the weapon.

Episode (8): Camelia and the world beyond our perception:

Our world of perception is restricted. There is a substantial world beyond the realm of our senses. We cannot perceive it. So, we don't consider so. Camellia and her team enter that world through a special device. They discover the world where the soul lives after our death.

Episode (9): Camelia and the messenger from the dark universe:

Camellia and her team get lost in that strange world. At that very moment, they meet a messenger from the bleak universe.

Most of the brains in this multiverse are monitored by a point in the dark universe. If one destroys that point, all the spell is lost. All souls will attain salvation together. On that day, all the universe will be destroyed together.

Messengers from the dark universe have traveled to different universes at different times and given them insight into living better lives. But they have never confided the whole truth. Because they don't have that right. If everyone discerns the truth, then this illusion of the multiverse will be destroyed.

Camellia and her team move forward to defend the point from a strange terrorist organization. The terrorist organization makes preparations in such a way that the messengers cannot harm them. So they turn to Camellia for support. Camelia meets Robert there again.

Camellia and her team protect that point of the black universe from the strange terrorist organization.

Teratulus 999 animals were destroyed by those messengers of the Dark universe. But now that the creatures of Teratulus 999 do not exist, it is extremely troublesome to get at that weapon.

Those messengers asked Camellia to go to the Universe of Panchabhuta.

Episode (10): Camelia and The Universe of Panchabhuta:

After landing in the Universe of Panchabhuta, Camelia realizes that the secret of all the creation of this multiverse is hidden in this universe. Camellia and her team then choose to meet the creator.

Episode (11): Camelia and The matrix of three basic elements:

God has created Panchabhuta with three fundamental elements. From there, this multiverse is created.

Camellia and her team meet the creator. But that creator confesses I have formulated everything in this multiverse. I have also created those monsters, but I don't have the authority to destroy those monsters. You all go to the kings of all kings.

Episode (12): Camelia and the kings of all kings:

Camellia and her team reach the king of all kings. The king of all kings announces that this multiverse will instantly be destroyed. The Great Destroyer has decided to destroy this multiverse ahead of time. Then he prefers to create a new multiverse. He has made an effort to convince The Great Destroyer multiple times, but nothing seems to transform his mentality.

Episode (13): Camelia and the day of the holocaust:

Camellia and her team reach The Great Destroyer. There, they attempt to convince The Great Destroyer that it may be troublesome to demolish something, but it is much more complicated to create something. So let The Great Destroyer postpone the day of a great deluge.

The Great Destroyer is pleased with Camellia's messages and wishes to allot Camellia a significant responsibility in this multiverse.

The Great Destroyer delivers Camellia the weapon with which the creatures of Teratulus 999 win against the monsters.

Camellia accepts that weapon.

Characters

Camelia:-

Camelia is a young lady who is fond of adventure. She is born and brought up in Kolkata. Then she receives training from ISRO and NASA. Since her childhood, she has had an outstanding interest in space. At a very early age, she lost her parents. She has grown up in sheer loneliness in her life. She lost her venerated friend Robert on the initial space mission of her life. She survives with the faint hope that Robert will come back into her life.

Camellia roams about in several universes to conserve human civilization from monsters of the future world. Once he reaches the Dark Dimension, she comes across the creator, the king of all kings, and the great destroyer in turn. Numerous mysteries of the multiverse are disclosed. But in virtual life, Camellia constantly misses her parents and Robert very often.

CAMELIA

Robert Malcolm:

Robert is Camelia's friend. He is a humanoid. The brain of a world-renowned scientist is positioned in the physique of a soldier. Several chips have been implanted in his brain to modify his decision-making capability so that he can take the exact decision.

In the initial episode of the series, Camellia is isolated from him. But in Camellia's flashbacks, he returns again and again. Robert returns towards the end of the series. He comes back as a villain.

ROBERT

Dr. Blatteria:

Dr. Blateria is a scientist from the planet deckster. Dr. Blateria will directly or indirectly assist Camelia in various adventures. He will guide her, too. He is very enthusiastic about the planet of blue color. He researched the diversified planets of the solar system. He confides Camellia in detail about the planet Terratullus 999.

DR. BLATTERIA

Aritra Basu:

The time difference between one universe to the next is about 1000 years. Aritra Bose is one of those who came to our globe from the world after thousands of years. He informs Camellia about the multiverse in detail. In the future world, how the monsters are striving to obliterate human civilization, he conversed about that in detail.

He helps Camellia with various adventures. He is a pivotal unit of the Camellia squad.

Indrajit Sanyal:

He is Camellia's childhood pal. He boosts Camellia in all her expeditions. He cares for Camellia but never discloses it to Camellia. He protects Camellia from death in several adventures.

Creatures from planet Dexter:

They are creatures of a progressive planet in the universe. Many undetermined perils have come across the universe for the creatures of the planet Terratullus 999. They embark on a special mission to save the universe. They experiment with the carcasses of creatures from specific planets. Camellia comes upon the creatures from the planet Dexter on her initial space mission.

Creatures of Planet Terratullus 999:

Creatures of planet Terratullus 999 are the predecessors of humans. Their bodies have a lot in common with the human physique. Creatures from the planet Terratullus 999 open the door to the multiverse by being strong in the power of science. From then on, diversified dangers have emerged in varied universes. The confusion of universal programming begins.

The creatures of that planet namely Terratullus 999 are abolished by the messengers of the dark universe.

Messengers of Dark Universe:

Messengers of the Dark Universe reach out to different universes and seek to guide them to the appropriate path. The creatures of Terratullus 999 are destroyed by the messengers of the dark universe. Most of the brains in this multiverse are governed by one point of the Dark universe.

If that point is lost, all the magic is lost concurrently. All souls will attain salvation together. All universes will be demolished.

UAC and AUG:

UAC is the security council force of this multiverse. Camellia enrolls in the force. They reside in the diametrically opposite dimension, where everything is the exact opposite of this world. Animals that are enormous in this world are tiny there. Animals that are slight in our world, there they are huge.

AUG is a multiverse terrorist organization. Robert later joins that force. He yearns to eradicate the point of this dark universe, from which most of the brains in this multiverse are monitored. If that point can somehow be annihilated, then everyone will be exempted from the illusion. All souls will be redeemed together. The illusion of time and dimension of this multiverse will be lost. This multiverse will be destroyed that day. On that day, the incredible flood will come.

Camellia and her team up with the UAC forces and messengers from the Dark universe can be competent to stop the AUG forces.

Monster:

Creatures of planet Terratullus 999 have a great enmity with monsters. Defeated by the creatures of the planet Terratullus 999, they take refuge in the underworld. But after the creatures of the planet, Terratullus 999 are destroyed by the messengers of the Dark Dimension, they come out again.

MONSTER

Animals of the planet Terratullus 999 are similar in appearance to humans. So monsters seek to eliminate humanity.

In the future world aliens and monsters are inhabiting earth. Humans are dwelling in space in 108 spaceships. Monsters crave to abolish them, and Camellia and her team desire to save human civilization.

Creator:

He is the creator of this multiverse. He has created panchabhuta with three elemental elements. By that panchabhuta, he has formulated this infinite multiverse. But he doesn't have the sovereignty to regulate this multiverse.

Kings of all kings:

Kings of all kings are the governor of this multiverse. He wishes this multiverse to be exclusively developed.

The Great Destroyer:

He wants to bring about the cataclysm ahead of time. Since he speculates there is a considerable mess in universal programming. So this creation is presently going out of his control. Hence, he needs to destroy this multiverse and create everything anew. Accordingly, he wants to precisely regulate that fresh creation. There is a difference in his opinion with kings of all kings. Kings of all kings believe that if creation is strictly controlled, it will never thoroughly improve.
